Dear Colleague:

Valley Cottage Animal Hospital

is pleased to introduce

Dr. Felicia L. Haberfield

as the newest member of our veterinary team.

Dr. Haberfield is a 2007 graduate of the College of Veterinary Medicine at the University of Minnesota. After a year-long internship at a prestigious small animal emergency and referral practice in Manhattan, which included comprehensive surgical training, Dr. Haberfield will be starting her residency program in the greater New York City Metropolitan area. She will be joining our practice on a part-time basis during her residency program.

Dr. Haberfield's background in research and her emergency clinic training ensure that she will be a valuable contributor to our state-of-the-art practice.

Sincerely,

The Partners and Staff of the Valley Cottage Animal Hospital
